# THE RIGHT APPROACH IN THE WORLD OF FINANCE

## LA BONNE APPROCHE DU MONDE DE LA FINANCE

In a risky business environment, the role of internal control and audit has been reinforced these last years. Students need to be prepared for this new environment: in this context, the first aim of the MSc CACF is to provide them with a modern and effective approach of the tools needed in the world of finance. After completing the CACF programme, students will be able to conduct an audit mission in a company, perform a financial analysis of a business and assess the risk of an activity in order to improve its performance and efficiency.

*Dans un environnement risqué, le rôle du contrôle interne et de l'audit a été renforcé ces dernières années. Les étudiants doivent être préparés pour ce nouvel environnement : dans ce contexte, le premier objectif du MSc CACF est de leur donner une approche moderne et efficace des outils nécessaires au monde de la finance. Après avoir suivi le programme CACF, les étudiants seront capables de conduire une mission d'audit dans une entreprise, effectuer l'analyse financière d'une activité et mesurer son risque dans le but d'améliorer sa performance et son efficacité.*

## PROGRAMME STRENGTHS

- Putting the theory to practice through real time audit mission performed in a company
- Online resources and workbooks made available to support Fraud examination course through the ACFE partnership
- Culturally and academically diverse student group
- *Mise en pratique des connaissances acquises à travers une mission d'audit réelle dans une entreprise*
- *Partenariat avec l'ACFE permettant l'accès aux ressources documentaires dans le cadre du cours de « Fraud investigation ».*
- *Groupe multiculturel et de formations académiques variées*

## TARGETED SKILLS AND COMPETENCIES

- Use of financial information to make decision
- Identification of corporate risks and fraud issues and ways to manage and to fight against them
- Knowledge of tools for management control and internal control and applications for financial modeling (ERP, Excel VBA)
- *Utilisation de l'information financière dans la prise de décision*
- *Identification des risques et des problèmes de fraude en entreprise et proposition de solutions pour leur gestion et leur démantèlement*
- *Connaissance des outils de contrôle de gestion et du contrôle interne, ainsi que les applications pour la modélisation financière (ERP, VBA)*

4 to 6 months

## PARTNERSHIP

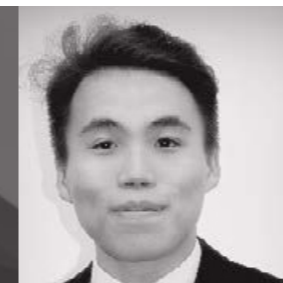

## DUAL DEGREE

ISCTE University, Portugal

ISCTE Business School  
INSTITUTO UNIVERSITÁRIO DE LISBOA

# TESTIMONIALS

### Tuguldur DAAVADORJ

*"Strengthened by its past MSc Control, Audit & Corporate Finance, ESC Clermont seduced me immediately with its major advantages:*

*- A committed faculty, composed of known and recognized professors and experts from the field*

*- Class rich in ideas, cultures, experiences and an environment favorable to the intellectual curiosity*

*- Academic courses, corporate missions and individual interviews combining theoretical and operational aspects make the MSc Control, Audit & Corporate Finance a complete program, faithful to the concept of «Think global, act local».*

*Challenge successfully met! After one year of study and 6 months of successful internship at Société Générale retail banking, I signed a two-year VIE contract to work in one of the Société Générale CIB fixed income desks based in New York.*

*I leave with great excitement, but little stress thanks to my solid ESC Clermont background!"*

### Thomas RUIGROK

*"Upon the completion of my bachelors in economics, I decided that I wanted to further my studies in the field of finance. In particular, I was looking for a program with a syllabus that touched upon all areas of finance and offered an international study environment.*

*The MSc CACF offered all of this and more. Lectures were given by professionals who had vast experiences in the area they were teaching, allowing them to give interesting insights into the topic and offer advice to students who were interested in pursuing a career in that area. In addition, a month of intensive French at the beginning of the program and lessons throughout the two semesters helped the class pick up the language and better integrate with the French culture.*

*I believe it is because of this program I was able to secure an internship as a Financial Analyst at the European headquarters of Nike in the Netherlands. During my Internship I applied aspects of what I learned quickly and effectively and ultimately add value to my team. As a result, I was offered a full-time position."*

### Audrey TIEDJOP

*"Le Groupe ESC Clermont offre un programme très intéressant en matière de Finance –Audit. Il est recommandé pour l'étudiant qui souhaite une formation approfondie en matière d'audit. De plus pour une spécialisation en Finance de marché, l'Ecole vous permet d'accéder gratuitement à une des meilleures écoles du Portugal pour une spécialisation en Finance et ainsi avoir un double degree. Ce programme totalement enseigné en anglais offre la possibilité d'être compétitif sur le marché international, et de maîtriser le vocabulaire technique du métier où que vous allez. Je suis arrivée avec un niveau moyen en anglais mais aujourd'hui je n'éprouve plus de problèmes sur ce domaine et cela c'est grâce à l'attention que chaque professeur porte à chacun de ses étudiants. C'est un programme qui booste l'étudiant à s'exercer encore et encore et à aimer la filière d'audit."*
